

# DEBOSSING INFO SHEET

Lesro is proud to introduce logo debossing, our newest customization opportunity. Have your logo or brand emblazoned on any Lesro upholstered product and select from dozens of vinyl colors across 4 different patterns. We can deboss on any fabric location - seat, back or arm panel.

The debossing process uses a heated die to create a permanent, recessed impression of your logo in the vinyl. The result is subtle yet striking, adding a high-end look and a tactile feel to the furniture.

## General Information:

### Pricing

Please contact [Customer Service](#).

### Minimum Order Quantity

No minimum

### Maximum Logo Imprint Dimensions

10 x 10 inches

### Lead Time

Please contact [Customer Service](#).
